

Southern California Edison
2022-WMPs – 2022 Wildfire Mitigation Plan Updates

DATA REQUEST SET O E I S - S C E - 2 2 - 0 0 3

To: Energy Safety
Prepared by: Michael Hinton
Job Title: Senior Engineer
Received Date: 3/22/2022

Response Date: 3/24/2022

Question 02:

Section 8.6 – De-energization Map:

- a. In Section 8.6 SCE provided a list of frequently de-energized circuits. However, to meet the statutory requirements utilities are also required to provide a map showing the listed frequently de-energized circuits.
 - i. If SCE included a map of frequently de-energized circuits, please indicate where that map can be found in the 2022 WMP update submission (or elsewhere).
 - ii. If SCE did not include a map of frequently de-energized circuits in the 2022 WMP update submission, please provide that map.

Response to Question 02:

The map entitled “WMP_2022_PSPS_DeEn_Freq_2019_2021_20220323” reflects the location of the frequently de-energized circuits SCE listed in the WMP.
