

Southern California Edison Company's Declaration of Confidential Designation
Pursuant to the California Public Utilities Commission's Rules of Practice and
Procedure

I, Raymond Fugere, declare and state:

1. I am the Director of Wildfire Safety at Southern California Edison Company (SCE). As such, I have responsibility for overseeing and reviewing SCE's confidential materials in connection with SCE's 2023-2025 Wildfire Mitigation Plan and related Data Requests. I am authorized to request confidential treatment via this application and certification on behalf of SCE.
2. I am making this declaration in accordance with the instructions set forth in Decision 16-08-024 and Decision 17-09-023 of R. 14-11-001, which were issued August 25, 2016, and September 28, 2017, respectively, and govern the submission of confidential documents to the Commission.
3. I have personal knowledge of the facts and representations herein and, if called upon to testify, could and would do so, except for those facts expressly stated to be based upon information and belief, and as to those matters, I believe them to be true.
4. Listed below are the data for which SCE is seeking confidential protection and the basis for SCE's confidentiality request.

Location of Confidential Data	Pages	Description of Information that is Confidential	Basis for SCE's Confidentiality Claim
<p>The confidential data is located in the files: TUG_Seg.csv PSPS_cc.csv GRC_Seg.csv</p> <p>The file are attachments to SCE's responses to Data Request Set Cal Advocates Set 05, Q5.</p>	N/A	<p>The files include specific overhead and underground asset and risk information including circuit-segment, and risk score information that can be combined with publicly-available asset locational data to identify detailed risks of SCE's infrastructure and Critical Facilities in High Fire Risk Areas (HFRA).</p>	<p>The information meets the balancing test of California Government Code §§7922.00 and 7922.540.(a). It is in the public interest that the information not be disseminated publicly. Release of detailed asset and risk event information could make SCE's facilities vulnerable to attack and could be valuable information in planning an attack on critical infrastructure. Further, providing this information in addition to and in relation with Critical Facility information could further the consequences of such an attack.</p> <p>There is little to no benefit to making this information publicly available. Third parties do not need this information to evaluate SCE's 2023-2025 Wildfire Mitigation Plan (WMP) or 2025 WMP Update. As such, the public interest in not disclosing this information far outweighs the public interest in disclosing it.</p>

I certify under penalty of perjury that the information contained in this certification is true, correct, and complete to the best of my knowledge.

Executed on April 12, 2024 at Sherman Oaks, California.
