NOTICE OF APPLICATION SOUTHERN CALIFORNIA EDISON'S REQUEST TO INCREASE ELECTRIC RATES

Application A.21-07-009

WHY AM I RECEIVING THIS NOTICE?

On May 3, 2022, Southern California Edison served its direct testimony for the second phase (Track 2) of its July 22, 2021 application with the California Public Utilities Commission (CPUC) for authorization to recover costs related to the Customer Service Re-Platform (CSRП) project. The CSRП project delivers a new billing and customer service system that performs functions such as customer billing and payment processing, credit and collections, and customer account management.

The first phase (Track 1) of this application concerned CSRП costs through April 2021. The second phase (Track 2) of this application will concern CSRП costs after April 2021. In this second phase (Track 2), SCE is requesting approximately \$65.0 million in customer rates.

WHY IS SCE REQUESTING THIS RATE INCREASE?

- In 2017, SCE formally launched its CSRП project to replace SCE's legacy Customer Service System with a new billing and customer service system.
- In April 2021, SCE successfully implemented the new billing and customer service system.
- The new billing and customer service system delivered by the CSRП project is more reliable than the legacy system, enables quicker and more efficient customer rate changes, and allows SCE to respond to new regulatory requirements more quickly and effectively.

- The first phase (Track 1) of SCE's application focused on SCE's requests to recover costs incurred through April 2021 to design, build, and deploy the new billing and customer service system.
- The second phase (Track 2) of SCE's application now focuses on SCE's requests to recover costs incurred after April 2021 to stabilize the new billing and customer service system and to provide on-going system support and maintenance.

HOW COULD THIS AFFECT MY MONTHLY ELECTRIC RATES?

In **2023**, if SCE's rate request is approved by the CPUC, the average residential monthly bill using 500 kWh per month would increase by approximately **\$0.48 or 0.3% per month for Non-CARE customers** and by approximately **\$0.32 or 0.3% for CARE customers**.
