

February 2008

Keeping California **Clean & Green**

With one simple act, you can support California's goal to generate more energy from natural resources such as water, wind, solar, geothermal, and biomass.

Just write a separate check for any amount, payable to the **Renewable Resource Trust Fund**, and include it in the return envelope with your bill payment. SCE will forward your check to the California Energy Commission, which administers the fund.

Your contribution is not tax deductible, but you will be helping to keep California clean and green.

Learn more about renewable energy at www.sce.com/cecfund or call (800) 555-7794.

Diversity Celebrated

Each February, SCE joins the nation in celebrating Black History Month with employees and community members.

We recognize people of African descent who have made significant impacts in science, technology and the electric industry. We celebrate their work and acknowledge their contributions to the evolution of electricity.

SCE honors their vision and intelligence through a series of company- and employee-sponsored events in the community. And, we showcase a select group of inspirational African American inventors on our Web site at **www.sce.com/inventors**.
