NOTICE OF APPLICATION
Southern California Edison Company's Request to Change Electric Rates
Application A.20-10-012

Why am I receiving this notice?

On October 23, 2020, Southern California Edison (SCE) filed its General Rate Case (GRC) Phase 2 Application (A.20-10-012). In this application, SCE is proposing to adopt rates that more accurately reflect what it costs to serve each customer class. This results in rates increasing for some customer classes and decreasing for other customer classes; no new costs are being proposed in this Phase 2 Application.

If the CPUC approves this application, SCE will recover forecasted costs in electric rates over a 4-year period beginning the second quarter of 2022. This will impact your monthly bill.

Why is SCE requesting this rate revision?

In the second phase of the General Rate Case, rates are designed by dividing approved electric costs among each customer class (residential, commercial, etc.). There are no new costs proposed in this Phase 2 application. This application will redesign rates by incorporating rate changes from other SCE proceedings including SCE's Phase 1 General Rate Case and would be phased in over four years.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average residential non-CARE monthly bill using 500 kWh per month would increase by approximately \$1.18 or 1.1% per month.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels.
