NOTICE OF APPLICATION FILING FOR CHANGES IN ELECTRIC REVENUES:  
APPLICATION FOR APPROVAL OF ENERGY EFFICIENCY AND  
DEMAND RESPONSE INTEGRATED DEMAND SIDE MANAGEMENT  
PROGRAMS AND BUDGETS FOR 2013-2014**

**APPLICATION (A.) 12-07-004**

On July 2, 2012, Southern California Edison Company (SCE) filed an Application with the California Public Utilities Commission (CPUC) requesting a change in SCE's electric revenues related to its proposed energy efficiency program for the 2013-2014 program cycle.

**ENERGY EFFICIENCY PROGRAM PLANS**

On May 18, 2012, the CPUC issued Decision D.12-05-015, which ordered SCE, Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E) and Southern California Gas Company (SoCalGas) to file applications with the CPUC to establish energy efficiency programs and budgets for 2013 and 2014. SCE's proposed application A.12-07-004 requests CPUC approval of SCE's proposed program plans and budgets, which will allow SCE to continue to effectively and efficiently promote, implement and maintain the CPUC's Energy Efficiency Program. These programs are intended to pursue and encourage energy-efficient measures over both the short- and long-term. In order to fully implement these programs in 2013 and 2014, SCE is requesting the CPUC authorize SCE to collect \$355.8 million in annual electric revenues over each of the next 2 years (2013-2014) to fund these programs. This is a net decrease of more than \$46 million over the annual revenues authorized for the 2010 – 2012 Energy Efficiency program cycle. If approved by the CPUC, SCE's request could potentially result in a rate decrease to customer base rates.

The following table compares SCE's current average rates to the proposed change in average rates if SCE's proposals in this application are approved by the Commission:

<b>Customer Group</b>	<b>Present Average Bundled Service Rates June 2012 ¢/kWh</b>	<b>Proposed Bundled Service Rates ¢/kWh</b>	<b>Proposed Change %</b>
Residential	16.17	16.11	-0.39%
Lighting – Small and Medium Power	15.39	15.33	-0.36%
Large Power	10.40	10.35	-0.43%
Agricultural and Pumping	11.78	11.73	-0.34%
Street and Area Lighting	18.26	18.20	-0.33%
Total	14.43	14.38	-0.38%

\*\*The actual changes in rates will be determined by the CPUC\*\*

### **EVIDENTIARY HEARINGS (EH'S)**

The CPUC **may** hold evidentiary hearings where parties of record present their proposals in testimony and are subject to cross-examination before an Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record may present evidence or cross-examine witnesses during EH's. Members of the public may attend, but not participate in these hearings. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision that the CPUC will either adopt, amend, or modify in issuing its final decision on the application. The CPUC's final decision may differ from what is requested by SCE in its Application.

The CPUC's Division of Ratepayer Advocates (DRA) will review this application. The DRA is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state and obtain the lowest possible rate for service consistent with reliable and safe service levels. The DRA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. The DRA's views do not necessarily reflect those of the CPUC. Other parties of record will also participate.

### **CPUC PROCESS**

If you wish to comment on this proceeding, you may submit written correspondence or send an email to the CPUC's Public Advisor's Office (PAO) at the address shown below. Please state that you are
