IV. Appendix.....	12

I. BACKGROUND

On December 19, 2018, the California Public Utilities Commission (Commission or CPUC) opened Public Safety Power Shutoff (PSPS) Order Instituting Rulemaking (R.)18-12-005 (OIR) to examine the rules that allow electric utilities, under the Commission's jurisdiction, to de-energize power lines in case of dangerous conditions that threaten life or property in California. On June 4, 2019, the Commission issued Decision (D.)19-05-042 (PSPS OIR Phase 1 Decision), which established the PSPS Guidelines, building on directives established in Resolution ESRB-8. On June 5, 2020, the Commission issued D.20-05-051 (PSPS OIR Phase 2 Decision) adopting updated and additional PSPS guidelines.

The PSPS OIR Phase 2 Decision required SCE to convene, at least quarterly, regionalized working groups providing the opportunity for participation from small multi-jurisdictional electric utilities, community choice aggregators (CCAs), publicly owned electric utilities, communications and water service providers, CPUC staff, tribal and local government entities, Public Safety Partners, and representatives of people/communities with access and functional needs (AFN) and vulnerable communities. These working groups provide a forum to share lessons learned between the impacted communities and the electric investor-owned utilities (IOUs). Components of the de-energization protocols that could be addressed by the Working Groups include the provision of Community Resource Centers (CRCs), communication strategies, information sharing, identification of critical facilities, strategies for supporting AFN people/communities, and contingency plans. SCE is required to report back to the CPUC on the Working Group progress on a quarterly basis.

In addition, the PSPS OIR Phase 2 Decision required SCE to establish an Advisory Board to provide advisory functions regarding de-energization, consisting of Public Safety Partners, communications and water service providers, local and tribal government officials, business groups, non-profit organizations, representatives of AFN people/communities, and academic organizations. SCE is working with this territory-wide Advisory Board to discuss best practices for de-energization issues and safety, community preparedness, regional coordination and the optimal use of existing and emerging technologies.

To comply with the guidelines provided by the Commission in D.20-05-051, SCE formed the PSPS Regional Working Groups and a service area-wide Advisory Board immediately following the issuance of the decision on June 5, 2020.

On June 29, 2021, the Commission issued D.21-06-034 (PSPS OIR Phase 3 Decision) adopting updated and additional PSPS guidelines. The Commission noted that "Each electric investor-owned utility must file and serve its quarterly regional working group reports in R.18-12-005 or its successor proceeding."

This is the Q2 2021 progress report on SCE's Working Groups and Advisory Board as required by the Commission.

II. WORKING GROUPS

During the third quarter of 2020, SCE established three Working Groups to include representation from various key stakeholders as directed by the Commission. SCE formed three unique regionalized Working Groups that collectively represented the entire SCE service area. The various counties in SCE's service are represented in alignment with CalOES defined regions.

SCE held its Q3 2021 Working Group meetings on August 31, September 1 and 2, 2021.

The schedule of the Q3 and Q4, 2021 Working Group meetings is shown in the table below:

Working Group	Q3 2021	Q4 2021
Central Region (Region V)	August 31, 2021	November 30, 2021
LA Metro & Coastal Region (Region I)	September 1, 2021	December 1, 2021
Inland Empire & Northern Region (Region VI)	September 2, 2021	December 2, 2021

On February 12, 2021, SCE submitted its PSPS Corrective Action Plan to the CPUC. As mentioned in SCE's PSPS Action Plan, SCE will leverage the Working Groups and Advisory Board to review progress and identify further corrective actions to update the PSPS protocols and procedures. In addition, as SCE identifies needed improvements to existing PSPS communications, it will review these improvements with the Working Groups and Advisory Board to solicit feedback.

1. WORKING GROUP MEMBERS

SCE currently has representation from the following stakeholders for each of the three regional Working Groups:

- Small multi-jurisdictional electric utilities
- Community Choice Aggregators (CCAs)
- Publicly owned electric utilities
- Communications and water service providers
- Tribal and local government entities
- Public Safety Partners
- Representatives of people/communities with AFN and vulnerable communities
- Commission staff
- Cal OES representatives
- Others (e.g., Healthcare facilities)

The Q3 2021 Working Group meetings held on August 31, September 1 and 2, 2021, were well represented by the members of the Working Group. The list of Working Group members that attended the Q3 2021 meetings are provided in the Appendix of this document.

2. WORKING GROUP MEETING(S) AGENDA AND MINUTES

SCE’s Q3 2021 Working Groups meetings were hosted remotely via Microsoft Teams due to the COVID-19 restrictions. The agenda included:

- PSPS Education & Outreach¹
- Community Safety
- PSPS Enhancements
- Concurrent Emergencies

The presentations for each Working Groups meeting are included in the Appendix of this document.

Central Region - The Central Region Working Group meeting was held on August 31, 2021. The table below lists key discussion items and responses that SCE provided during this meeting.

	Participant Questions/Comments	SCE Responses	Action Items
1	In context of PSPS Education & Outreach, a member asked if SCE is training 211 members to refer customers who may call in, to services provided by Independent Living Centers, and Community Based Organizations	SCE stated that we are training 211 members on how to respond to customers, including appropriately referring to Independent Living Centers and Community Based Organizations.	No further action required.
2	A working group member asked how many customers have purchased a back-up generator.	SCE shared that between January – June 2021, we have provided incentives for 1, 414 batteries including portable batteries and portable generators.	No further action required.
3	James Belden from the California Association of Health Facilities recommended Local Health Department be included in the early notifications for PSPS Events for situational awareness purposes. Local Health Departments are responsible to help relocate patients during power outages. This is critical these days due to COVID-19 limitations.	SCE explained the early situational awareness notifications go to county OEMs, and it is under their discretion for the distribution of notifications from their counties. SCE’s Dedicated LNO lead will work with James to size the problem, and work with the appropriate stakeholders at County OEMs to resolve. LPA and BR will also work with County Offices of Emergency to encourage they are notifying the county health departments	No further action required.

¹ CPUC Decision 21-0X-XX includes a new requirement for IOUs to discuss PSPS Education and Outreach with PSPS Working Group Members

LA Metro & Coastal Region - The LA Metro & Coastal Region Working Group meeting was held on June 3, 2021. The table below lists key discussion items and responses that SCE provided during this meeting.

	Participant Questions/Comments	SCE Responses	Action Items
1	A member asked how “impressions” are defined.	SCE responded that an impression is the number of times an ad is displayed.	No further action required.
2	A member asked for a breakdown of impressions per ad/post, and additional questions: <ul style="list-style-type: none"> • What is the target number of customers you are trying to reach out of the total service territory? • How are those efforts directed at customers who mostly speak and use prevalent languages outside of English? 	SCE responded they will gather requested details and follow up with data by email.	SCE provided data in an email on September 2, 2021.
3	A member asked if SCE has liaisons at CRCs to provide direct updates to customers who visit? Are SCE staff located at all CRCs, or are they staffed by a location’s local staff?	SCE explained that persons at CRCs and CCVs are SCE personnel, who provide real time updates to customers. Additionally, SCE embeds Account Representatives into County Emergency Offices case-by-case when requested by a county. SCE provides space in its Emergency Office Center (EOC) for public safety partners when requested.	No further action required.
4	A member asked for information about mutual assistance SCE receives from local or county governments. The member provided the clarifying question: Are you asking if SCE participates in a mutual assistance with local and county governments in terms of sharing resources and personnel? The response from member was “yes.”	SCE stated that typically, mutual assistance SCE would receive in a large-scale emergency would be from other utilities (not local governments). SCE leverages the standardized emergency management (SEMS) protocol for managing emergencies.	No further action required.

Inland Empire & Northern Region - The Inland Empire & Northern Region Working Group meeting was held on September 2, 2021. The table below lists key discussion items and responses that SCE provided during this meeting.

	Participant Questions/Comments	SCE Responses	Action Items
1	A member requested a social media toolkit for PSPS decision making	SCE responded that we could develop one and provide it to the member.	Pending completion.
2	A member asked for a list of Community Based Organizations SCE works with.	SCE stated they can follow up with the member and provide the list to them.	SCE emailed the list of CBOs to the member on September 21, 2021.
3	A member stated that when working with hotels/motels, customers in their area have communicated that the existing locations are not near their homes. How is SCE working to find hotels/motels near locations where PSPS events take place?	SCE stated that we continue to identify additional hotels and motels on an on-going basis. SCE will follow up with members to understand specific gaps and work to find more options.	SCE followed up with member to understand specific need.
4	A member mentioned the infrastructure hardening work SCE states that is underway, and wanted details for Riverside County	SCE responded work has/is being done in Riverside County, and pointed the member to the website with details (sce.com/PSPSEnhancements)	No further action required.
5	A member stated there is a discrepancy between SCE's outage website and what the member is experiencing; that lack of accurate and consistent data is confusing to customers.	SCE could not troubleshoot the specific issue during the meeting, but stated we would follow up with the member after the meeting.	SCE had a meeting with the member on September 3 to review the situation. SCE's outage map was accurate, however outage information is based on zip code and not premise level. SCE stated they would add a disclaimer to the website soon to avoid confusion, and that premise level alerts will be available on sce.com in October 2021 ² .
6	A member asked if there was a way for the public to access	SCE stated that is not available, but that the 3-day	No further action required.

² Since the meeting took place in early September, SCE has run into performance issues with the new billing system that will require more testing. SCE is now targeting launch for address level information by end of year.

	their FPI at a given moment in time, to understand if it is meeting SCE's threshold for triggering a PSPS event.	notification to Public Safety Partners fulfills this function for early notification. Similarly, the 2-day notifications work as a warning to all customers.	
7	In context of the Fire Potential Index (FPI) updates, a member asked if the threshold increase from 12 to 13 means that the risk of wildfires was last year higher than this year.	SCE stated that the update was based on additional analysis from our fire scientist team that supported the change, and that its change is not reflective of the 2021 wildfire season.	No further action required.
8	A member asked how someone would contact the Business Resiliency Duty Manager (BRDM) if needed.	SCE responded that the BRDMs should manage relationships with local governments and tribal nations during PSPS events; if businesses needed to contact SCE during PSPS events, they should leverage their SCE representative, or if they are a Public Safety Partner, SCE hosts meetings each day during activation for dialogue.	No further action required.
9	A member asked if there is a phone number or email address for the BRDM that public safety agencies and emergency managers can use for rapidly developing events.	SCE will follow up with the member to understand their role and provide contact information.	SCE followed up with member on September 3, 2021 and provided the member the correct contact information.
10	A member asked if SCE's websites have been tested with screen reader programs to make sure they are accessible to persons with visual impairments.	SCE stated that we comply with Web Content Accessibility Guidelines (WCAG) standard for site accessibility including screen readers.	No further action required.
11	A member asked if SCE has contacted all tribal nations in our service territory to ensure they are aware and registered for the Public Safety Partners Portal.	SCE responded that we have conducted several outreach attempts, including one-on-one outreach.	No further action required.

III. ADVISORY BOARD

SCE developed an approach for establishing a wildfire safety community Advisory Board that would emulate the approach implemented by San Diego Gas & Electric Company (SDG&E). SCE's Advisory Board works on service area-wide de-energization and wildfire issues and provides hands-on, direct involvement and advisory functions on various aspects of PSPS de-energizations. SCE has established one Advisory Board for the entire SCE service area and meetings are scheduled quarterly.

SCE invited key stakeholders to represent the SCE communities on the Advisory Board as directed by the Commission. The PSPS Advisory Board was created during the third quarter of 2020, and the first Advisory Board meeting was held on October 20, 2020.

1. ADVISORY BOARD MEMBERS

SCE reached out to the following organizations, as directed in the PSPS OIR Phase 2 Decision, to request participation in the Advisory Board:

- Public Safety Partners
- Communications and water service providers
- Tribal and local government entities
- Business groups
- Nonprofit organizations
- Representatives of people/communities with AFN and vulnerable communities
- Academic organizations

2. ADVISORY BOARD MEETING(S) AGENDA AND MINUTES

The Q3 2021 Advisory Board meeting was held on September 14, 2021. Stakeholders from all category requirements in the Phase 2 Decision were invited. The meeting was facilitated by SCE's Advisory Board Chair Donald Daigler. The first portion of the meeting provided a safety moment, housekeeping overview, and review of agenda topics.

The following topics were discussed during this meeting:

1. PSPS Weather Update
2. Public Safety Partner Engagement
 - a. Communications during PSPS
 - b. Concurrent Emergencies
 - c. FPI Changes
3. Grid Hardening Progress
4. Keeping Partners and Customers Informed
 - a. Customer Mitigations Update
 - b. AFN Enhancements
 - c. AFN Liaison Role in the IMT
5. LPA Outreach Efforts
6. PSPS Enrollment Stats and Campaign to Increase Participation

The presentation for the Advisory Board meeting is included in the Appendix of this document.

At the meeting, Don Daigler opened by welcoming all the attendees and expressing how we utilize these forums to seek their input and feedback. The agenda was populated to show the topics for presentation and discussion.

The table below provides a summary of the question’s SCE received and the responses SCE provided during the meeting.

	Participant Questions/Comments	SCE Responses	Action Items
1	In the context of SCE’s internal Incident management training, a member shared his observations on the difference the training has made for their team. In addition, this member expressed appreciation for the work that SCE has done and the willingness to go the extra mile to come out to the incidents and the comfort it provides when SCE is available in person.	SCE responded by expressing appreciation for the feedback and acknowledgment. In addition, SCE shared that they increased staffing to support the Fire Management Program.	No further action required.
2	In the context of a recent Edison request to the PUC, a member ask for an update on the rate increase request on the PSP covered conductor program.	SCE responded that we didn't get exactly what we were looking for, but we did get better than what was originally put out in the proposed decision. The Commission made the decision to increase and bring the number closer to our original request of 6000 miles of covered conductor in total and we landed in somewhere around 4500.	No further action required.
3	A member expressed appreciation and complimented the team on the speed at which they were able to implement the expedited grid hardening projects which resulted in an observable reduction to the number of customers impacted by PSPS.	SCE responded with a Thank you.	No further action required.

4	A member requested a copy of today's presentation.	SCE responded the Information will be distributed.	Presentation was provided
5	A member requested more general information regarding the new dedicated AFN Liaison role.	SCE responded that the AFN Liaison Officer will work with organizations like 211 and ILC and the LNO and Business Resiliency will be the point of contact.	No further action required.
6	In the context of the announcement of the new AFN role, a member asked if there is a way that they could have access to a list of affected AFN population.	SCE responded, due to privacy concerns, we are limited on who we can share the list of our MBL and AFN customers with, however, the PUC has granted SCE authority to provide information to local and tribal government Emergency Management. SCE does not have legal authority to release the names of MBL and AFN customers to non-governmental entities.	SCE to follow up with member to address other ways SCE can provide support.

7	<p>In the context of the SCE Battery program, a member inquired if SCE has received feedback from ILRCs regarding qualifications requirements. Specifically, feedback indicating that requirements are too restrictive?</p>	<p>SCE responded with an overview of feedback received from the ILC's and that we have summarized the eligibility requirements and rebate options available for customers that may fall outside the income guidelines. In addition, for SCE's Critical Care Backup Battery program, SCE distributes communications to customer homes and follow up with phone calls. We repeat that cycle at least three times or more, and we will also make door to door visits.</p>	<p>SCE to follow-up to discuss further and solicit additional feedback to improve the program.</p>
8	<p>In context of the Backup Battery program, a member request information about the level of equipment and training the customers receive.</p>	<p>SCE responded that the installation contractors provide education on how to use the batteries and each customer receives a Quick Start guide, a service contact number and a 3year warranty.</p> <p>In addition, SCE follows up with a post survey to evaluate and monitor the level of service the contractors provide. Overall, SCE has received very high satisfaction scores 80-90% from our customers.</p>	<p>No further action required.</p>
9	<p>Member requested information on SCE Medical Baseline Allowance.</p>	<p>SCE provided the URL for our Medical Baseline program: www.sce.com/medicalbaseline</p>	<p>No further action required.</p>

The next Advisory Board meeting is scheduled for December 08, 2021.

Concurrent Emergencies Response	Bree Medina	20 minutes
Round Table and Q&A	All	15 minutes
Closing Remarks	Bob Stiens	10 minutes

2021 WEATHER & WILDFIRE FORECAST

Weather patterns and expectations

- Current neutral conditions could turn back towards weak La Nina conditions by the fall
- Drier and warmer than normal weather pattern to continue
- Some extreme heat days could still occur
- Above normal Santa Ana wind days are expected again

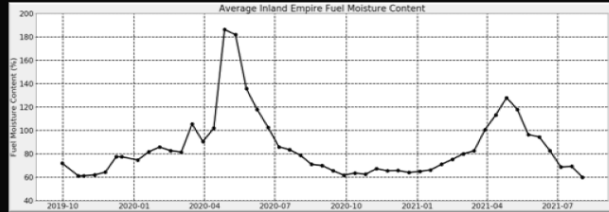

Fire fuels update

- Living vegetation is drier than normal for this time of the year
- Dead vegetation has repeatedly hit record dry levels so far this year
- Increased monsoon activity, and the lack of a spring grass crop, has mitigated large fire potential to some degree over the southern part of the state

Fire Season Outlook

- The potential for large, fuel driven fires will continue to exist through mid-September before the transition to wind-driven fires in the fall
- Some of the areas that will be most prone to significant fires this fall include Topanga Canyon, Laguna Canyon, and in the hills north of Simi Valley

Month	Forecast	2021 Forecast	
		Forecasted Category	HW Days
August	+0.6 SD/+1.1F	Above Normal	7
September	+0.6 SD/+1.1F	Above Normal	6
October	+0.9 SD/+2.2F	Above Normal	2
November	+0.9 SD/+2.2F	Above Normal	0
December	+0.9 SD/+1.4F	Above Normal	0

INFORMING PARTNERS AND CUSTOMERS: INCREASED PROGRAM OUTREACH

Informing customers ahead of fire season about available programs and services. Generated **410 million impressions** on PSPS and emergency preparedness so far this year.

- Digital
- Social media
- Radio
- Bill messages
- Connected TV
- Newsletters
- Newspapers
- 20 languages

You can reduce your energy costs if you rely on medical equipment at home.

If you use certain electrically powered medical devices at home, the Medical Baseline Allowance Program:

- Provides more electricity at the lowest available rate
- Has no income eligibility requirement
- No note from a medical professional is needed before June 30, 2021

In addition you can sign up for Outage Alerts to help you be better prepared for emergencies and Public Safety Power Shutoffs.

To find out if you qualify for a reduced rate, visit sca.com/medicalbaseline or call 1-800-655-4555.

INFORMING PARTNERS AND CUSTOMERS:

ACCESS & FUNCTIONAL NEEDS OUTREACH

To identify and better serve customers with access and functional needs (AFN), we are:

- Collaborating with the Hospital Association of Southern California to reach patients across **185 hospitals**
- Engaging with the **Statewide AFN Council** to reach the clients of council agencies
- Leveraging **1,600 community-based organizations (CBOs)** to reach their networks
- Medical Baseline **enrollments increased 6%***
- Identified **2 million AFN customers**
- New **dedicated AFN liaison officer** during PSPS events
- Expanded **escalated notification attempts**, including in-person, if necessary, to all Medical Baseline customers

* From December 2020 to June 2021

July 30, 2021 [Visit website](#)

Medical Baseline Power Allowances: How Hospitals Can Assist Patients

EDISON
Energy for what's ahead

MEDICAL BASELINE ALLOWANCE

When you require electrically-operated medical equipment in your home.

Southern California Edison (SCE) offers the following alert for hospitals on the utility's Medical Baseline Allowance program. If a patient or someone in a patient's household requires the regular use of electrically-powered medical equipment or other qualifying medical devices they may qualify for the program, which provides more electricity at the lowest baseline rate to help offset the cost of operating medical equipment.

Patients in this category can also sign up for critical alerts and notifications about outages, including Public Safety Power Shutoffs.

10

MITIGATING IMPACTS OF PSPS:

EXPANDED CUSTOMER CARE PROGRAMS FOR AFN

CRITICAL CARE BACKUP BATTERY

Expanded fully subsidized Critical Care Backup Battery program to support all eligible Medical Baseline customers*

- **4,083** deployed to-date in 2021
- **4,805** cumulative since 2020
- **5,000** forecasted by year-end

PORTABLE GENERATOR \$500 REBATE

Expanded to all Medical Baseline or income-qualified customers, and removed water pumping dependency

211 REFERRAL SERVICE

Offers services, outreach, and customer support to AFN customers (September 2021)

*Enrolled in Medical Baseline Allowance program, CARE or FERA, and in HFRA
Note: See appendix for a comprehensive list of programs

11

MITIGATING IMPACTS OF PSPS:

EXPANDED CUSTOMER ASSISTANCE

PORTABLE GENERATOR \$200 REBATE

New rebate available to all HFRA customers

POWERSTATION BATTERY REBATE INCREASED TO \$75

Increased from \$50, available to all HFRA customers

DISCOUNTED HOTELS

Expanded number of hotels offering discounts to SCE customers in HFRA

12

MITIGATING IMPACTS OF PSPS:

SUPPORTING OUR COMMUNITIES

Keeping local officials updated to support their response efforts.

Consulting community, CBO, public health and local and tribal governments during each event.

8

COMMUNITY CREW VEHICLES (CCV)

Can be deployed rapidly for remote locations. Location and hours listed online before shutoffs.

63

COMMUNITY RESOURCE CENTERS (CRC)

Contracted and available based on potential shutoff locations. Location and hours listed online before shutoffs.

8*

RESILIENCY ZONES

Enable backup power generation at certain essential sites in remote communities.

* 5 ready, 3 in-progress

13

INFORMING PARTNERS AND CUSTOMERS:

INCREASED COMMUNITY OUTREACH

Sharing information
with stakeholders and
customers.

Building on feedback
to better
communicate,

PSPS COMMUNITY SAFETY

BOB STIENS

Senior Advisor
Government Relations
Local Public Affairs

Community Safety Solutions

Telecom/ISP Communication

- One-on-one meetings in August 2021, sharing the list of 72 FIC and analysis of historic PSPS events applied to 2021 to help with resiliency planning
- Telecom/ISP presence at SCE Community Resource Centers & Community Crew Vehicles
 - One telco has offered WiFi network equipment to be available at CRCs within their footprint

Traffic Signals

- SCE partnering with CalTrans to pilot solutions from third party vendors
- SCE's Advanced Technology & Emerging Technology departments are leveraging their contacts and relationships at EPRI (and other similar research organizations) to find solutions; SCE will share results of pilot efforts at future Working Group meetings
- SCE shares circuit information with local governments to assist in planning where back up generation should be located based on historic PSPS events

Grant Opportunities

- SCE informs when grants are available to local and tribal governments, and CBOs
- SCE provide technical assistance for grant applications

What other safety concerns do you have?

Concurrent Emergency Response System

The extreme weather that creates the need for PSPS can also exacerbate other local power emergencies. Outages could result from heat-damaged equipment, active wildfires or from issues with the state's electrical supply—or unrelated emergencies.

SCE Response:

- California Standardized Emergency Management System and Federal National Incident Management System
- SCE Emergency Operations Center (or virtual EOC as required)
- One or multiple Incident Management Teams activated based on scope of incident
- Incident Support Team available for more complex incidents to assist with prioritization and resources
 - IST directs all aspects of communications and outreach including coordination with external agencies and first responders

Concurrent Emergency Response System

Operations Capabilities

- State-of-the-art EOC includes designated spaces for alternate communications, operations team, press conferences and other key functions.
- Deployable mobile command center outfitted with full range of telecommunications capabilities.
- Virtual operations, tested and used in 2020 and 2021; communications through Microsoft Teams, key PSPS IMT members outfitted with enhanced home equipment.
- Key operations centers and personnel outfitted with radios and satellite phones.

Year-Round Business Resiliency Staffing

- 24/7 Watch Office - 24/7 Duty Manager
- Fire science - Meteorology
- Emergency operations logistics and coordination
- Deployment of fire management staff to Incident Command posts during active wildfires
- Compliance (CPUC, NERC, FERC)
- Training and Exercises

Energy for What's Ahead®

Concurrent Emergencies During PSPS

Emergency	Customer Impacts	IMT Type	Partner Engagement
PSPS Events	Outages due to wildfire threat. Outage duration dependent on weather and ground conditions.	PSPS IMT	<ul style="list-style-type: none"> • Customer and Public Safety Partner Notifications prior to and during event • 24/7 IMT support for public safety partners during event • Communication/Coordination with CalOES • Public Safety Partner Daily Briefing Calls • Information sharing on the Public Safety Partner Portal prior to and during event • Outage-related information and customer resource availability shared on SCE.com
Weather-Related Events (e.g. wind, snow, heat)	Outages due to equipment damage or system relays due to weather conditions. Customers restored as crews make repairs and timing depends on the scope of damage (unless areas are under consideration for PSPS, in which case restoration is tied to the end of the PSPS event). Can impact all areas.	Electrical Services IMT	<ul style="list-style-type: none"> • Automated Customer Outage Notifications after outage • Business Resiliency Duty Manager support for Public Safety Partners during event • Communication/Coordination with CalOES • Public Safety Partner Briefing calls as needed • Outage-related information shared on SCE.com
Active Wildfire	Power interruptions due to fire-damaged equipment or requested for first responder safety. Customers could experience protracted outages. Likely in high fire risk areas.	Electrical Services IMT	<ul style="list-style-type: none"> • Automated Customer Outage Notifications (fire-damage related) after outage • SCE Fire Management Officers respond to Incident Command Posts (ICP) as AREPS • Business Resiliency Duty Manager support for Public Safety Partners during event • Outage-related information shared on SCE.com
State Power Supply Issues (including CAISO Rotating Outages)	CAISO-directed load shedding events – use of short duration rotating outages to curtail demand during statewide emergency power supply conditions. Cycles across entire SCE service area.	Electrical Services IMT Rotating Outage Task Force	<ul style="list-style-type: none"> • Customer Notifications prior to event • Coordination with state agencies • Public Safety Partner Briefing calls as needed • Rotating-outage blocks and outage-related information shared on SCE.com

23

Group Discussion and Feedback

What tools and communications from SCE do you rely on?

- Information needed for your response
- Receiving incident notifications –especially during ongoing multiple incidents

What can we do more of to better partner with you?

- Implementation of the ICS system and integration with outside agencies
- Working on issues that develop during incidents

Group Discussion and Feedback

What would you like to see less of – to help us be more effective?

- Implementation of ICS
- Notifications and communications
- Planning and preparation

ROUND TABLE and Q&A

- [Public Safety Partner Portal YouTube Tutorial](#)

Questions? Please reference the [PSPS Portal Registration Guide](#) or email publicsafetyportal@sce.com

STEP 01 Request Access

Go to publicsafetyportal.sce.com

From the Public Safety Portal home page, click on Request Access

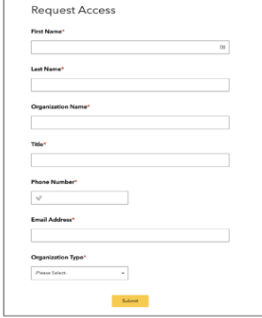

The screenshot shows the Southern California Edison logo and the text 'Public Safety Portal'. Below the logo, it states: 'The Public Safety Portal includes Public Safety Power Shutoff planning and event-specific information for public safety partners that support emergency management efforts. This includes emergency responders from federal, state, local and tribal governments, telecommunications providers, water agencies, publicly-owned utilities, emergency hospitals, and transportation agencies.' At the bottom, there are two buttons: 'Request Access' and 'Sign In'.

STEP 02 Complete Request Access Form

After selecting Request Access, complete the Request Access form.

Each line item on the form is required in order to process the request. A list of the eligible types of organizations is provided on the following page.

The screenshot shows a form titled 'Request Access' with the following fields: First Name*, Last Name*, Organization Name*, Title*, Phone Number*, Email Address*, and Organization Type* (with a dropdown menu). A 'Submit' button is at the bottom right.

PSPS WEATHER UPDATE

Heather Kane

Fire Meteorologist
Fire Science
Business Resiliency

Energy for What's Ahead®

Fire Weather Update

Near Term Update (1-2 weeks)

- Fuels are drier than normal across most of the area
- Increasing winds across the Sierra Sunday, September 19th
- First Santa Ana wind event of the season possible Monday, September 20th

October/November Outlook

- Warmer than normal
- Potential for more Santa Ana winds events than normal
- Some rain may be possible later in October and November

EMERGENCY MANAGEMENT AND PUBLIC SAFETY PARTNER ENGAGEMENT

Thomas Brady

Principal Manager,
PSPS Readiness
Business Resiliency

Energy for What's Ahead®

Concurrent Emergency Response System

The extreme weather that creates the need for PSPS can also exacerbate other local power emergencies. Outages could result from heat-damaged equipment, active wildfires or from issues with the state's electrical supply—or unrelated emergencies.

SCE Response:

- California Standardized Emergency Management System and Federal National Incident Management System
- SCE Emergency Operations Center (or virtual EOC as required)
- One or multiple Incident Management Teams activated based on scope of incident
- Incident Support Team available for more complex incidents to assist with prioritization and resources
 - IST directs all aspects of communications and outreach including coordination with external agencies and first responders

Concurrent Emergencies During PSPS

Emergency	Customer Impacts	IMT Type	Partner Engagement
PSPS Events	Outages due to wildfire threat. Outage duration dependent on weather and ground conditions. Concurrent Emergency Response System

Operations Capabilities

- State-of-the-art EOC includes designated spaces for alternate communications, operations team, press conferences and other key functions.
- Deployable mobile command center outfitted with full range of telecommunications capabilities.
- Virtual operations, tested and used in 2020 and 2021; communications through Microsoft Teams, key PSPS IMT members outfitted with enhanced home equipment.
- Key operations centers and personnel outfitted with radios and satellite phones.

Year-Round Business Resiliency Staffing

- 24/7 Watch Office - 24/7 Duty Manager
- Fire science - Meteorology
- Emergency operations logistics and coordination
- Deployment of fire management staff to Incident Command posts during active wildfires
- Compliance (CPUC, NERC, FERC)
- Training and Exercises

FPI CHANGES

Energy for What's Ahead®

2021 Update to FPI Threshold for Activation

2020 Threshold: 12

2021 Threshold: 13

- 30% fewer customers in scope*
- 40% fewer customers de-energized*

FIRE POTENTIAL INDEX (FPI)

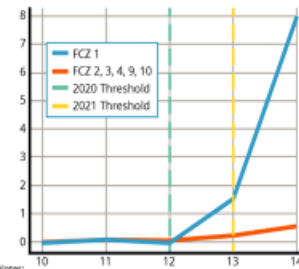

FPI estimates the likelihood of a spark turning into a major wildfire. FPI uses a whole-number scale:

- normal (1-11)
- elevated (12-14)
- extreme (15+)

* Based on a back cast of 2020 PSPS events and assuming the same weather and fuel conditions. Some reductions might have already been accounted for with other improvements.

Exceptions:

- Fire Climate Zone (FCZ) 1
- GACC Preparedness level 4 or 5
- Circuits in an active Area of Concern

Notes:
 1. Based on an analysis of fire data from 1950-2017.
 2. FPI is calculated as a whole number (there are no fractional FPI values).
 3. Fires of less than 10,000 acres are not represented on this graph.

* Assumes identical weather and fuel conditions as 2020

REDUCING THE USE OF PSPS

Rob Tucker

Principal Manager
Engineering, T&D

Energy for What's Ahead®

EXPEDITED GRID HARDENING

Grid hardening enhances system resiliency during extreme weather events and will reduce the scope, frequency and duration of PSPS events

- Specific emphasis on those circuits most frequently impacted by PSPS while continuing work on other circuits subject to PSPS

For Internal Use - For Edison employees only; do not distribute externally

16

TOOLS TO REDUCE NEED FOR PSPS

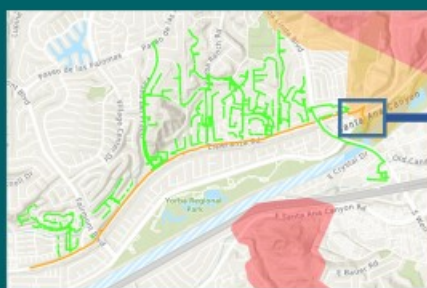

Insulated Wires	Segmentation	Weather Stations	Switching Protocols	Operational Protocols
Targeted replacement of bare wire with insulated wires (covered conductor) to be able to safely raise windspeed thresholds for PSPS	Installing additional automated devices to further isolate and reduce the number of customers that have to be de-energized per circuit	Adding new weather stations to improve situational awareness and increase accuracy of PSPS operations – so only those circuits facing danger are in scope	Continuing to develop circuit-specific protocols to move customers not impacted by PSPS, to reduce the number of customers remaining on an affected circuit	Up-to-date information on ground conditions, such as lack of vegetation, recent burn scars, and location of poles and wires are considered to assess wildfire threat and the need for PSPS

For Internal Use--For Edison employees only; do not distribute externally

17

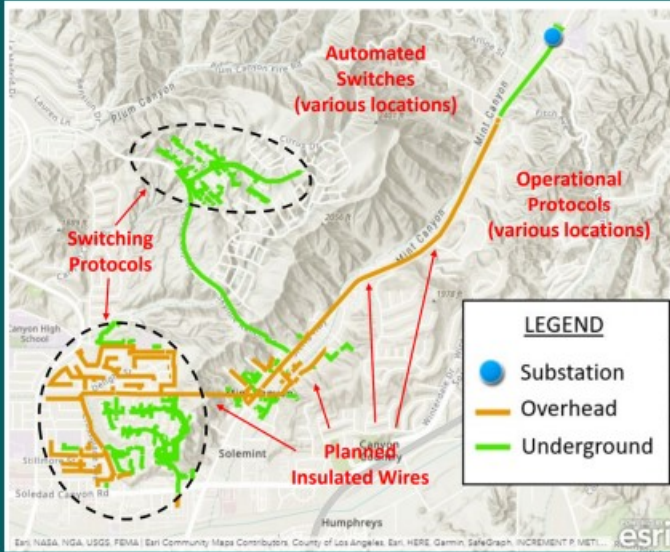

CIRCUIT SEGMENT EXCEPTIONS

- Some circuit segments in High Fire Risk Areas are at a lower fire risk than the rest of the circuit. We are identifying these segments to set de-energization thresholds at higher wind speeds.
- Circuit Segment Exceptions are based on a combination of risk, fuel, and circuit vulnerability factors

18

BENEFITS CALCULATIONS Hillfield 16 kV

Circuit: Hillfield

Community: Santa Clarita

Planned Work:

- Replace 3.5 miles of existing overhead wire with new insulated wire
- Automate 3 switches
- Update switching protocols
- Implement operational protocol for portions of the circuit

Expected Completion Date:

- September 2021

Expected Improvements:

- **100% reduction** in customer outage time, assuming the same weather conditions in 2020*

* weather and fuel conditions

EXPECTED IMPROVEMENTS

Expedited grid hardening will **reduce the need for PSPS on the 72 most frequently impacted circuits by:**

- Installing covered conductor
- Increasing circuit segmentation
- Adding weather stations
- Updating switching/operational protocols

Targeting completion by October 1.

81,000

CUSTOMERS REMOVED FROM PSPS CONSIDERATION THROUGH EXCEPTIONS AND SWITCHING PROTOCOLS

70%

ESTIMATED REDUCTION IN PSPS OUTAGE DURATION BY OCTOBER 1*

PROGRESS: 30% ESTIMATED REDUCTION IN PSPS OUTAGE DURATION HAS BEEN ACHIEVED TO DATE. RESOLVING CONSTRUCTION CHALLENGES ON SELECT CIRCUITS.

CUSTOMER MITIGATIONS

Jessica Lim

Principal Manager,
Customer Programs & Services

Energy for What's Ahead®

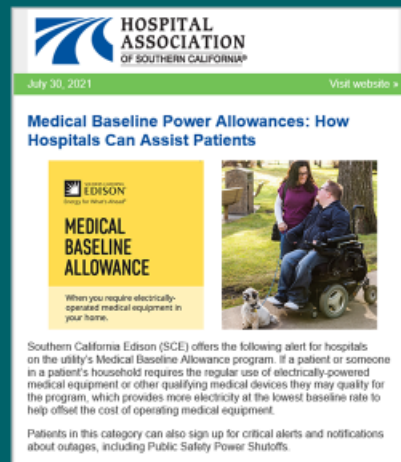

INFORMING PARTNERS AND CUSTOMERS:

ACCESS & FUNCTIONAL NEEDS OUTREACH

To identify and better serve customers with access and functional needs (AFN), we are:

- Expanding **escalated notification attempts**, including in-person, if necessary, to all Medical Baseline customers
- Adding a new **dedicated AFN liaison role** during PSPS events
- Increasing promotion of the **Medical Baseline program and PSPS preparedness**
 - Collaborating with the Hospital Association of Southern California to reach patients across **185 hospitals**
 - Engaging with the **Statewide AFN Council** to reach the clients of council agencies
 - Leveraging **1,600 CBOs** to reach their networks

22

MITIGATING IMPACTS OF PSPS:

EXPANDED CUSTOMER CARE PROGRAMS FOR AFN

CRITICAL CARE BACKUP BATTERY

Expanded fully subsidized Critical Care Backup Battery program to support all eligible Medical Baseline customers*

- **4,542** deployed to-date in 2021
- **5,000** forecasted by year-end
- **5,268** cumulative since 2020

PORTABLE GENERATOR \$500 REBATE

Expanded to all Medical Baseline or income-qualified customers, and removed water pumping dependency

211 REFERRAL SERVICE

Offers services, outreach, and customer support to AFN customers (September 2021)

*Enrolled in Medical Baseline Allowance program, CARE or FERA, and in HFRA
Note: See appendix for a comprehensive list of programs

23

MITIGATING IMPACTS OF PSPS:

EXPANDED CUSTOMER ASSISTANCE

PORTABLE GENERATOR \$200 REBATE

New rebate available to all HFRA customers

POWERSTATION BATTERY REBATE INCREASED TO \$75

Increased from \$50, available to all HFRA customers

DISCOUNTED HOTELS

Expanded number of hotels offering discounts to SCE customers in HFRA

24

MITIGATING IMPACTS OF PSPS:

SUPPORTING OUR COMMUNITIES

Keeping local officials updated to support their response efforts.

Consulting community, CBO, public health and local and tribal governments during each event.

8 COMMUNITY CREW VEHICLES (CCV)

Can be deployed rapidly for remote locations. Location and hours listed online before shutoffs.

63 COMMUNITY RESOURCE CENTERS (CRC)

Contracted and available based on potential shutoff locations. Location and hours listed online before shutoffs.

8* RESILIENCY ZONES

Enable backup power generation at certain essential sites in remote communities.

* 5 ready, 3 in-progress

25

OUTREACH

BOB STIENS

Senior Advisor
Government Relations
Local Public Affairs

Energy for What's Ahead®

INFORMING PARTNERS AND CUSTOMERS:

INCREASED PROGRAM OUTREACH

Informing customers ahead of fire season about available programs and services.
Generated **410 million impressions** on PSPS and emergency preparedness so far this year.

- Digital
- Social media
- Radio
- Bill messages
- Connected TV
- Newsletters
- Newspapers
- 20 languages

You can reduce your energy costs if you rely on medical equipment at home.

If you use certain electrically powered medical devices at home, the Medical Baseline Allowance Program:

- Provides more electricity at the lowest available rate
- Has no income eligibility requirement
- No note from a medical professional is needed before June 30, 2021

In addition you can sign up for Outage Alerts to help you be better prepared for emergencies and Public Safety Power Shutoffs.

To find out if you qualify for a reduced rate, visit socal.com/medicalbaseline or call 1-888-655-4555.

In an emergency or a
**Public Safety
Power Shutoff,**

we want you to
be informed.

Sign up today for
outage alerts.

Stay informed.
Stay safe.

[Sign Up Now](#)

INFORMING PARTNERS AND CUSTOMERS:

INCREASED COMMUNITY OUTREACH

Sharing information
with stakeholders and
customers.

Building on feedback
to better
communicate,
coordinate, and share
information.

- 11** COMMUNITY MEETINGS
- 14** POWER OUTAGE WEBINARS
- 13** COUNTY EMERGENCY
MANAGEMENT AGENCY MEETINGS
