

# RATE SCHEDULES TOU-EV-7, TOU-EV-8, TOU-EV-9 for Business Customers Charging Electric Vehicles

## What is a TOU-EV Rate and are you eligible?

Southern California Edison's (SCE) Rate Schedules TOU-EV-7, TOU-EV-8, and TOU-EV-9 are applicable to businesses that separately meter the charging of their electric vehicles.

### TOU-EV-7 Rate Option

Is available to customers with charging demands of 20 kilowatts (kW) or less.

### TOU-EV-8 Rate Option

Is available for customers with charging demands above 20 to 500 kW.

### TOU-EV-9 Rate Option

Is available for customers with charging demands exceeding 500 kW.

## Basic Charges

TOU-EV rates have three main charges:

A monthly **customer charge**, which does not vary based on usage.

**Time-Of-Use (TOU) energy charges** are the cost per kilowatt-hour (kWh) of energy used in each TOU period. TOU periods vary by time of day, day of the week, and season (see Standard TOU Periods chart).

**Facilities-Related Demand (FRD) charges** apply year round and are calculated per kilowatt (kW) according to the highest recorded demand during each monthly billing period, regardless of season, day of week, or time of day. Please note that from 2019-2023 FRD charges are not applicable.

## Helpful Energy Tip

You can save on your electric bill if you are able to use the bulk of your energy during, or shift a sufficient amount of energy use to, lower-priced summer Off-Peak hours and winter Super Off-Peak hours.

**Rebates and Incentives.** You may qualify for several available SCE programs, federal, state, and local funding opportunities or incentives that support the adoption of electric vehicles. For links to resources, go to [on.sce.com/chargeready](https://on.sce.com/chargeready).

**Electric Vehicle Load Management.** To help you manage your electric vehicle load and costs, there are several load management strategies and technologies available to you. For more information, go to [sce.com/TE](https://sce.com/TE).
