SCE's APPLICATION FILING

This filing is referred to as Phase 2 of SCE's 2018 General Rate Case (GRC). The primary purpose of this application is for SCE to assign revenues to its customers, and adjust rate designs to recover those revenues. While this application will not increase or decrease overall revenues, residential customers' rates will change if the proposed changes are adopted. To reduce the impact to higher-usage residential customers, SCE is proposing an increase in the baseline allowance. This will provide more electricity at the lowest-priced rate (i.e., Tier 1). The chart below represents SCE's best estimate of the rate changes resulting from this proceeding as of the end of 2017. Revenue changes will be determined in separate CPUC proceedings that are likely to be decided in 2018, and which will be taken into account before the CPUC concludes its review of this application. The rate design the CPUC adopts in the Phase 2 proceeding will incorporate those revenue requirement changes from other CPUC proceedings, so the chart below will not likely represent the final rate changes that go into effect for customers in the first quarter of 2019.

Proposed Rate Impact by Customer Group (¢/kWh)

Customer Group	Current Avg Rate (Jan 2017) (¢/kWh)	Proposed Avg Rate (¢/kWh)	% Change

CPUC PROCESS

This application has been assigned to two Administrative Law Judges (Judges), who have determined how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. At the Evidentiary Hearing, parties of record will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judges will issue a proposed decision which may adopt SCE's application as proposed, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) has reviewed this application on behalf of SCE's customers. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at www.ora.ca.gov/.
