DATA REQUEST SET CalAdvocates - SCE - 2025 WMP - 03

To: Cal Advocates
Prepared by: Arianne Luy
Job Title: Engineering Manager
Received Date: 3/22/2024

Response Date: 4/12/2024

Question 11:

Please provide a geodatabase file with a polyline feature for each undergrounding project completed during the period of January 1, 2023, through December 31, 2023. In addition to the spatial location, please provide the following attributes for each project:

- a) Project ID number or other identifier, matching part (a) of the previous question
- b) Circuit ID, matching part (b) of the previous question
- c) Project completion date, matching part (g) of the previous question.

Response to Question 11:

Please see the attached document labeled *CalAdvocates_SCE_2025_WMP.zip*. The geodatabase file contains the project ID (Work Order Number), circuit name, and project completion date. The file contains locations where overhead structures were removed and underground structures were installed. These structures will be labeled correspondingly. Also note that not all geospatial data for underground structures installed are available because SCE is still in the process of updating its system.
