As stated in response to Cal Advocates SCE-WMP-03-Question 17, SCE's 2025 WMP Update included updated targets specific to its HFRA past-due notifications in ACI-23-13. These targets identified work plans for each category, or type, of past-due notification depending on its root cause. As discussed in ACI-23-13, a vast majority of the past-due notifications are attributed to external constraints or third party caused issues. The same can be stated for SCE's non-HFRA past-due notifications as well.
