DATA REQUEST SET Cal Advocates - SCE - 2025 WMP - 06

To: Cal Advocates
Prepared by: Kevin Arlic
Job Title: Senior Manager
Received Date: 4/15/2024

Response Date: 4/18/2024

Question 04.a:

In SCE's 2025 WMP Update at 2, SCE states that it "has made updates to its wildfire risk models that fall within Energy Safety's definition of 'significant.'"

a) What are the specific WMP initiatives that have been affected by the new model updates?

Response to Question 04.a:

a) What are the specific WMP initiatives that have been affected by the new model updates?

As discussed in the response to Question 03, the new risk models are used in an incremental nature and through various initiatives or components of those initiatives.

WMP initiatives that may have been impacted by the model refresh are as follows:

Asset Inspection Initiatives:

- Distribution High Fire Risk-Informed (HFRI) Inspections (IN-1.1)
- Transmission High Fire Risk-Informed (HFRI) Inspections (IN-1.2)
- Infrared Inspection of Energized Overhead Distribution Facilities and Equipment (IN-3)
- Infrared Inspection, Corona Scanning, and High-Definition Imagery of Energized Overhead Transmission Facilities and Equipment (IN-4)
- Generation High Fire Risk-Informed Inspections (IN-5)
- Transmission Conductor and Splice Assessment: Spans with LineVue (IN-9a)
- Transmission Conductor and Splice Assessment: Splices with X-Ray (IN-9b)

Vegetation Management Initiatives:

- Hazard Tree Management Program (HTMP) (VM-1)
- Structure Brushing (VM-2)

System Hardening Initiatives:

- Covered Conductor (SH-1)
- Undergrounding Overhead Conductor (SH-2)
