To: Cal Advocates

Job Title: Sr. Manager, Data Science
Received Date: 4/24/2024

Question 02:

Referring to SCE's response to Cal Advocates data request CalAdvocates-SCE-2025WMP-01 Question 1 (specifically WMP tables 1-1 and 1-2, provided as Excel file "2025 WMP Update Chapter 1 Tables 1-1 and 1-2.xlsx"):

Please add additional columns in Table 1-2 (tab "Table 1-2") for:

- a. Probability of Ignition
- b. Maximum Consequence Score
- c. Total circuit-miles of circuit

Response to Question 02:

Please refer to the tab "Table 1-2 (Updated)" in the attachment entitled "CalAdvocates-SCE-2025WMP-10.xlsx" provided in SCE's response to Question 1. Please note that SCE sorted Table 1-2 incorrectly by total PSPS Risk and not by Circuit-Mile-Weighted PSPS Risk Score. This has been corrected in the response and will be updated as part of our non-substantive errata on May 14. SCE has provided Probability of PSPS Event instead of Probability of Ignition and PSPS Consequence Score instead of Maximum Consequence Score because these are the components of the PSPS risk score.
