Question 19: Provide all drafts, plans and correspondence relative to resilience zones. Please, provide all correspondences related to these topics between Utility executives and contractors, insurers or reinsurers at any time from 2015 – 2019.

Response to Question 19:

SCE objects to the question as it is vague and ambiguous, overly broad and unduly burdensome, and beyond the scope of the proceeding. SCE's 2019 Wildfire Mitigation Plan relates to mitigation plans and activities SCE plans to undertake in 2019 to reduce wildfire risk.
