DATA REQUEST SET CalAdvocates - SCE - 2023 WMP - 05

To: Cal Advocates
Prepared by: Jonathan Morales
Job Title: Sr. Advisor Wildfire Safety Data Hub
Received Date: 2/10/2023

Response Date: 3/10/2023

Question 05:

Please augment Table 13 of the non-spatial data tables in your WMP Quarterly Data Report for Q4 of 2022, which reports asset-related corrective notifications on electric circuits that were open at the end of the quarter. Add the following information in separate columns:

- a) Name of the associated circuit
- b) ID number of the associated circuit
- c) Geographic latitude in decimal degrees, truncated to seven decimal places
- d) Geographic longitude in decimal degrees, truncated to seven decimal places
- e) Date the notification was originally opened
- f) Priority of the original notification (please use SCE's internal system of 1, 2, 3, etc.)
- g) Due date of the original notification
- h) Object/damage code or other internal SCE description of defect
- i) Please complete column "d. Line type" of Table 13.

Response to Question 05:

Please see the attached Excel file entitled, "CalAdvocates-2023WMP Set 5 Q5 Response – Final."

SCE provides Notification circuit and geographical latitude and longitude data where available in our source systems. Null values for circuit and lat/long data can be attributed to inactive structures and, or, data discrepancies in our source systems. SCE is actively working to resolve these data clean up issues as they are identified.
