2022-WMPs – 2022 Wildfire Mitigation Plan Updates

DATA REQUEST SET Cal Advocates - SCE - 2022 WMP - 04

To: Cal Advocates
Prepared by: Al Watson
Job Title: Sr. Manager Compliance and Training
Received Date: 12/17/2021

Response Date: 2/18/2022

Question 001 :

For each POU to which you supply power, please respond to the following:

In 2021, what coordination, planning, or other activities took place between you and the POU to mitigate the effect of a potential SCE-initiated PSPS event on the POU and its customers?

Response to Question 001 :

In 2021, SCE met with POUs which could be impacted by a PSPS event on our electric system. In these Joint Working Group sessions, SCE presented an operational framework that described PSPS communication processes, reporting protocols, and resource coordination to enhance situational awareness and minimize potential impacts to customers in the event a line serving them was being monitored for PSPS or was de-energized. In these sessions, SCE reviewed the impact on the POUs and discussed strategies to mitigate the effect of a potential SCE initiated PSPS event. SCE continues to coordinate with POUs to build efficiency during the life cycle of a PSPS event.
