Question 09:

Identify any ignitions in 2022 associated with assets where you had an existing corrective notification at the time of the ignition. Please provide a spreadsheet listing each such ignition (as rows) with the following information in separate columns:

- a) Unique ignition ID
- b) Date of ignition
- c) Cause of ignition
- d) Type of asset associated with the ignition
- e) Acres burned
- f) Number of structures burned, if any
- g) Number of injuries associated with ignition, if any
- h) Asset ID of asset associated with ignition
- i) Circuit ID number of circuit associated with ignition
- j) Notification number(s) for the existing maintenance tag on the asset in question

Response to Question 09:

Please see the attached Excel file entitled “CalAdvocates-SCE-2023WMP-06-Q9_Response.xlsx” that contains fires that meet the criteria specified in CPUC Decision 14-02-015.¹ Please note that the notifications listed are all maintenance notifications contained in SCE’s system of record that were pending on the structures at the time of the event. The information contained in the attached spreadsheet is based on the information currently known and subject to change. Please note that the ignitions may still be under investigation and the inclusion of any ignition does not mean that the notification was necessarily associated with such ignition. Rather, the inclusion of such ignition is based on SCE’s record of asset number associated with an ignition and SCE is providing open notifications for such ignitions based upon SCE’s system of record.

¹ Excludes those ignitions wherein the cause is currently under investigation by the SCE law department and the investigating governmental agency.
