**Question 19:**

Fire Suppression Training:

- a. Section 7.3.6.7 of SCE's 2022 WMP Update states that SCE provides workers with fire suppression equipment and training to extinguish incipient-stage ignitions (p. 459). Please provide the following:
  - i. What does 'fire suppression training' involve? Please provide specific examples of training for hot work crews.
  - ii. When and how often is this training provided?

**Response to Question 19:**

- i. All SCE field construction and maintenance personnel, including those that may conduct hot work activities, are required to take an in-person fire extinguisher training course, which includes a requirement to demonstrate the knowledge and ability to use a fire extinguisher. They are also required to take annual web-based training (WBT) refresher courses on appropriate fire extinguisher use.
- ii. SCE field personnel are required to undergo this training once when on-boarded into a field construction or maintenance role and annually thereafter for WBT refresher courses.
