DATA REQUEST SET A b r a m s - S C E - 0 0 1

To: Abrams
Prepared by: Troy Whitman
Job Title: Senior Advisor
Received Date: 3/5/2019

Response Date: 3/7/2019

Question 14: Please, indicate all ongoing collaborative teams associated with external firefighter organizations and provide all correspondence and meeting minutes associated with those discussions from January, 2015 to today.

Response to Question 14:

SCE objects to the question on the grounds that the term “ongoing collaborative teams associated with external firefighter organizations” is vague, overbroad, and ambiguous, and that the question is unduly burdensome as it calls for “all” categories of various documents. SCE also objects on the grounds that this question requests information and documents beyond the scope of the proceeding, which is scoped to examine SCE’s 2019 Wildfire Mitigation Plan (WMP). Notwithstanding these objections, SCE provides the following response.

SCE’s Fire Management Team is actively involved in the organizations listed below. SCE does not keep meeting minutes for these organizations; however, it is SCE’s understanding that both the California Fire Safe Council and the Southern California Association of Foresters and Fire Agencies have meeting agendas and/or meeting minutes available on their respective websites, which are included below.

- California Fire Safe Council – Board Member, Executive Committee, Secretary (<https://cafiresafecouncil.org/>)
- Southern California Association of Foresters and Fire Wardens – Board Member, Past President (2012) (<https://www.scaffw.org/>)
- Operation Santa Ana – Joint Fire/SCE Vegetation Management Inspection Program

In addition SCE’s Fire Management Team participates on an as-needed basis in the various Fire Chief Associations within SCE’s service area. SCE also understands these organizations maintain meeting minutes.
