DATA REQUEST SET A b r a m s - S C E - 0 0 1

To: Abrams
Prepared by: Peter Lee
Job Title: Senior Business Analyst
Received Date: 3/5/2019

Response Date: 3/7/2019

Question 15: Please indicate the percentage of “property owner objections” relative to the overall size of effort for vegetation management (e.g. number of objections/number of trees in total program). Similarly, please indicate the number of property owner objections/total for poles/towers in the HFTD areas. Please, also similarly size these “property owner objections” with every other mitigation where this has been listed as a risk or area of jeopardy.

Response to Question 15:

SCE objects to the question as it is overly broad, unduly burdensome, and because it is beyond the scope of this proceeding. SCE’s 2019 Wildfire Mitigation Plan (WMP) is comprised of mitigation and activities SCE plans to undertake in 2019 to reduce wildfire risk. Notwithstanding this objection, SCE responds as follows.

SCE does not track the precise number of “property owner objections” as it is SCE’s policy to react and respond to such objections to resolve them if possible. However, property owner resistance to increased and enhanced vegetation management practices is occurring and can be expected to continue. See, e.g., [Altadena](#) and [LA Times article](#).
