

Grid Interconnection Processing Tool (GIPT)

Password Reset Job ID

Prepared by:
GIPT Project Team

Revision Date: 6/6/2020

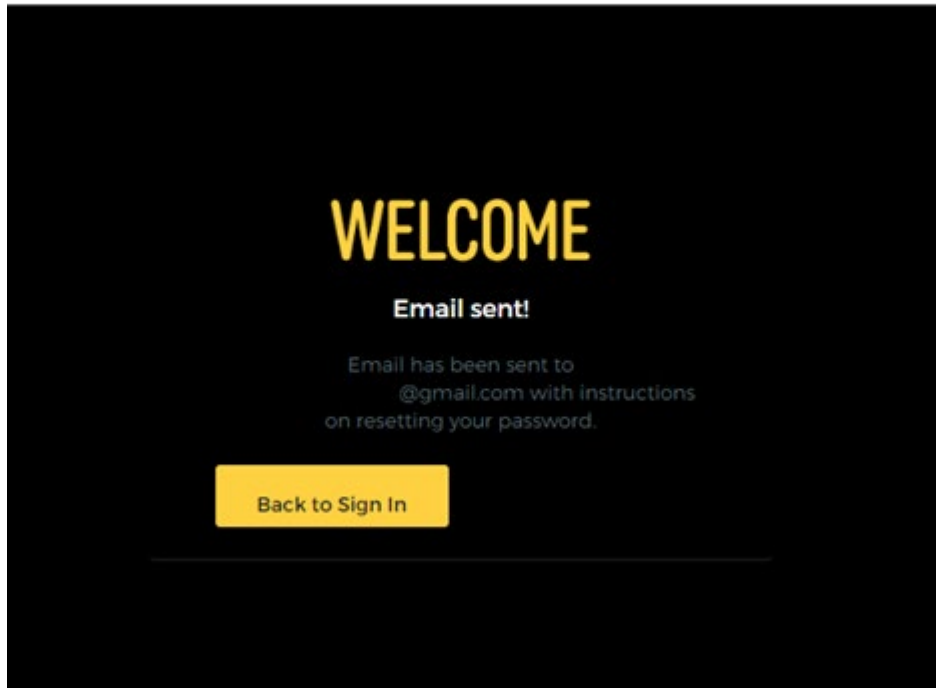

Open Password Reset url in new browser window <https://okta.sce.com/signin/forgot-password>

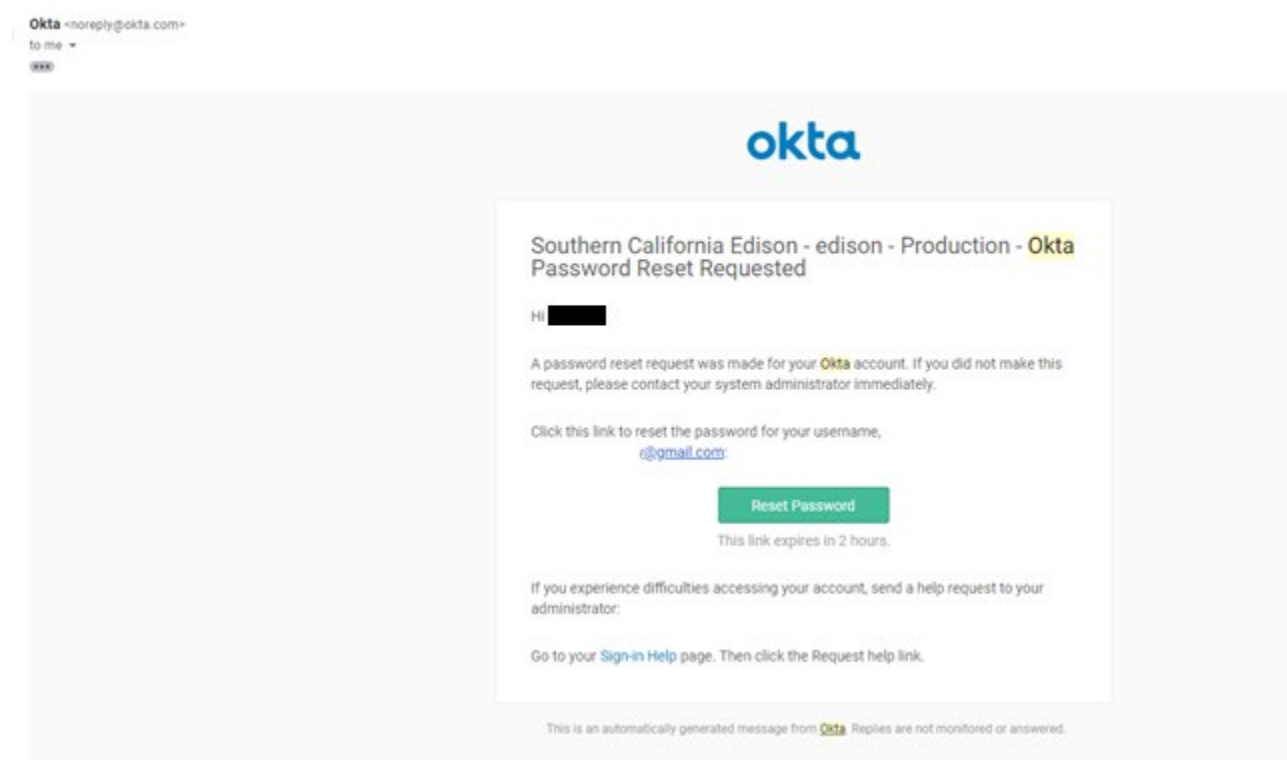

The screenshot shows a web browser window with the address bar displaying "okta.sce.com/signin/forgot-password". The page features the Southern California Edison logo at the top center, with the tagline "Energy for What's Ahead". Below the logo, the word "WELCOME" is displayed in large yellow letters, followed by "Reset Password" in smaller white text. A white input field labeled "Email or Username" is present, with a cursor inside. Below the input field is a yellow button labeled "Reset via Email" and a white link labeled "Back to Sign In".

Note: Please log off and close any and all GIPT/SCE.com browsers before attempting to reset your password

**Please enter GIPT Login ID/Email Address and click
“Reset via Email” button**

You should now receive an Email with password reset link. Click “Reset Password” button/link in the email

Note: Password Reset Email is received from **Okta noreply@okta.com** and not GIPT.

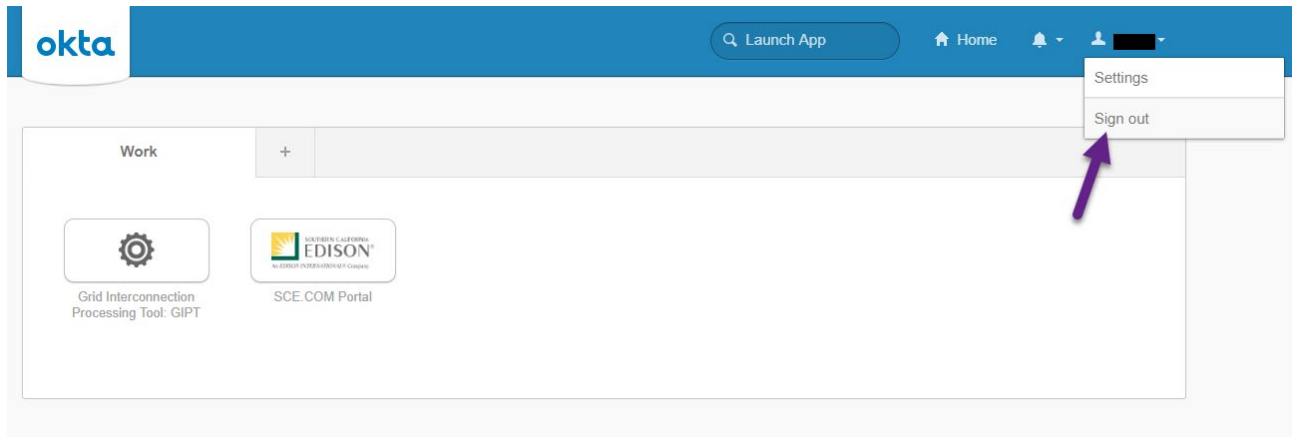

Enter New Password & Click “Reset Password” button

The screenshot shows a dark-themed user interface for password reset. At the top, the word "WELCOME" is displayed in large, bold, yellow capital letters. Below it, the text "Reset your password" is centered in white. A note in a smaller white font states "Password requirements: at least 8 characters." There are two white input fields: the first is labeled "New password" and contains seven dots; the second is labeled "Repeat password" and contains seven dots followed by a vertical cursor line. A yellow button with the text "Reset Password" is positioned below the input fields. At the bottom right, the text "Sign Out" is displayed in white and underlined.

Note: New password has to be at least 8 characters in length.

Password Reset is now successful. Sign out & Close the browser window.

Launch [GIPT Application](#) in New Browser Window & Login using the new credentials.
